

LaSan By: Lynne Tran

I live in Virginia and I was not excited when I heard that we had to go to California for camp. There are afternoon classes here. LaSan is a fun camp that teaches many things.

LaSan is a religious community; we pray every morning before class. The lunch here is good. Sr. Thu makes the best lunches ever. We have spaghetti, fried rice, noodles, and rice with soup. During lunch they also sell candy and snacks. In the afternoon we have Studies, Art, Computers, and Swimming. For studies, we alternate between debates and math. In Art, we have made friendship bracelets, pencil holders, paper cranes and more. In computer time we edit photos for the yearbook and if you finish you can play games. After computers we have swimming and we play water polo or water volleyball.

Although I doubted the fact that I had to go to California for camp, it turned out to be fun. The Soeurs and Freres were nice. I can't wait for La San to be rebuilt. I hope to go to La San next year.
