Swimming

Swimming Time in Lasan is really fun. Frere An is really good teacher because he always takes care of the swimming pool and makes sure we're safe. We have fun in the swimming pool because he makes fun games like water polo, volley ball, and a holding breath contest. When I was small, I did not like swimming at all. I never even put my feet inside the pool for the small kids. But when I looked at another small kid, they were scared like me, but they went inside the pool and had a lot of fun. That made me want to swim and learn how to. Even today I am having fun at Lasan in the swimming pool, enjoying times with good friends.

I will always remember Lasan even if it has to be rebuilt. I will never forget about this school and the swimming pool. Even if I don't come back to Lasan, I will always visit Frere An and the pool. The pool is the main reason why I love Lasan.
