

My time at Lasan

Haley Baugher

7th grade

I have been at Lasan since I was in kindergarten and the times I have spent there with my summers were all worth it. I will never forget the people here and though some may never come back, I will cherish the times we spent together.

When I come back two years later, I hope everything will be different, except the people I know. I want everybody to come back to this special place and enjoy the new Lasan. I know everything will be different and almost everyone will change. I know that when I come back in two years I will love it, even if everyone may not be there.

All in all, my time here has been the best in my entire life even if it hasn't been that long. I have loved everybody at Lasan and hold them dearly in my heart. I look forward to the new memories to come.

Sincerely,

Haley Baugher
