La San

Although this is my second year at La San, I still find it very exciting. I have made many new friends this year. Lunch is my favorite time because the food is good enough that I usually come back for seconds. I am sad to hear that they are demolishing all the buildings so they can rebuild Lasan. I don't think that they should build a new place, just add more bathrooms. Everything else is nice because it's basic and simple.

Most of the classes are fun and easy and all the teachers are nice. There's Bible, Swimming, Art, and Study. I think Art is the best because it's the easiest. Swimming is just a fun time in the pool. The class that you have to use your brain the most is Study. Even though some of the classes can be hard at sometimes, you can have a good time in all of them.

I look forward to seeing the new La San!
